RECRUITMENT ADVERTISING AND CANDIDATE ATTRACTION

We provide access to over **34 million UK candidates** via our partnered job boards, leading aggregators, social media platforms and our own exclusive networks.

Our in-house advertising experts build custom “attraction packages” that ensure the right exposure for your vacancies, enticing the highest calibre candidates, even for the most difficult roles to fill. Meanwhile, our bulk purchasing power ensures you only ever pay the fairest prices.

We monitor candidate trends and changes in the market so that you don’t have to. We will guide you on the most effective current recruitment campaign strategies that will work for you.

Media campaigns are fully branded to your business improving application quality by over 65%.

CANDIDATE MANAGEMENT TECHNOLOGY

Our leading-edge Applicant Tracking System (ATS) is a fundamental part of our service.
All applications are processed via your fully branded, cloud based and GDPR compliant system.

Hiring Managers gain full control and transparency against every vacancy that is posted.

Our technology acknowledges all candidates and the user-friendly interface allows for one click screening and automated communication. You can instantly identify who has been shortlisted in real time.

Designed for volume, qualified candidates can be pre-selected from 3,000 CV's per hour.

The ATS offers a dedicated reporting suite on each application enabling the creation of future tailored campaigns within the appropriate channels for greater success.

- ✓ Automated Email Communication
- ✓ Fully GDPR Compliant
- ✓ Multiple User Access Levels
- ✓ Full Transparency & Control
- ✓ Candidate Source Reporting
- ✓ Cloud Based
- ✓ Real Time Data

CANDIDATE EXPERIENCE & SOCIAL REPRESENTATION

Living in a socially driven environment, candidates will decide whether to apply to vacancies based on a business' social representation along with the experiences of previous candidates.

Our solutions ensure a first-class candidate experience. On all media adverts we provide candidates with a one click application process. If required, we can also deliver an application form-based process.

The fully automated ATS System communicates with candidates throughout the entire application process via email and significantly enhances the Candidate journey.

On average our clients receive considerably more applications from qualified candidates, a marked improvement in application drop off rates, higher conversion rates and positive candidate feedback.
