End to End Recruitment Solutions.

ATS Software, Video Interviewing, Cloud Based Recruitment Software, Onboarding Software, Careers Websites

About recruitive.

Recruitive has been synonymous with Recruitment Software since 2004. We are a market leading supplier of innovative End to End Recruitment Solutions.

We provide HR Professionals, Recruiters and Hiring teams with innovative, cloud-based technology aimed at streamlining the recruitment process, making it quicker and easier to recruit, whilst significantly reducing the time to hire and associated costs.

As early pioneers of multi job posting technology, our expertise extended into candidate management, CV parsing and scoring, search capabilities right through to candidate on-boarding.

During April 2019 the business was acquired and Recruitive became a wholly owned subsidiary of SaaS Holdings Limited. We support continued investment into ongoing Research and Development in order to remain ahead of the technical curve.

Our end to end solutions also incorporate the front-end candidate attraction capabilities of careers websites, built and designed by our in-house design specialists. This enables us to not only deliver award winning back end candidate management solutions for clients but also provide beautifully designed front end career and campaign websites to attract the best candidate talent.

As a result, we are one of the few providers in the market that can deliver a complete software solution.

Based in Cannock, Staffordshire, we employ 33 of the friendliest and most competent staff. We remain an incredibly innovative business, always looking for better ways to enhance the recruitment software landscape.

We are a market leading company.
