

Jobs Board

Features & Functions 1.0

About Recruitive

Recruitive has been synonymous with Recruitment Software since 2004. We are a market leading supplier of innovative End to End Recruitment Solutions. We have experience in the design of careers websites, recruitment agency websites and jobs boards since 2001.

We provide HR Professionals, Recruiters and Hiring teams with innovative, cloud-based technology aimed at streamlining the recruitment process, making it quicker and easier to recruit, whilst significantly reducing the time to hire and associated costs.

As early pioneers of multi job posting technology, our expertise extended into candidate management, CV parsing and scoring, search capabilities right through to candidate on-boarding. We have also designed, developed and supported hundreds of jobs boards over the years.

During April 2019 the business was acquired and Recruitive became a wholly owned subsidiary of SaaS Holdings Ltd. We support continued investment into ongoing Research and Development in order to remain ahead of the technical curve.

Our end to end solutions also incorporate the front-end candidate attraction capabilities of careers websites, built and designed by our in-house design specialists. This enables us to not only deliver award winning back end candidate management solutions for clients but also provide beautifully designed front end career and campaign websites to attract the best candidate talent.

As a result, we are one of the few providers in the market that can deliver a complete end to end solution.

Based in Cannock, Staffordshire, we employ 33 of the friendliest and most competent staff. We remain an incredibly innovative business, always looking for better ways to enhance the recruitment software landscape.

We are a market leading company.

Companies we work with

Job Board Features and Functions

Our aim is to design an **attractive, powerful, secure, and responsive** jobs board website for your company, using the very latest technology and the very latest online recruitment functionality.

We will also ensure that your jobs board is not only attractive, but that it functions and performs well, generates plenty of candidates and also generates revenue from your clients and advertisers.

Our experience in developing our jobs board websites comes from direct feedback from experienced recruiters, candidates and direct employers who have used our systems over the last 19 years. Our first jobs board was launched in the year 2001 and is still active in 2019. Getting a jobs board built is the easy part. Launching it and generating revenue is where we can help you the most!

Our jobs board website services also include an initial search engine optimisation exercise and ongoing search engine updates and content support.

Listed below are the features that will be included, as standard, in your new recruitment website. There are other, additional features, which are listed later in this document.
