End to End Recruitment Solutions

ATS Software, Cloud Based Recruitment Software, Onboarding Software, Job Boards.

About Recrutive Limited

Recrutive has been synonymous with Recruitment Software since 2004. We are a market-leading supplier of innovative End to End Recruitment Solutions. We have experience in the design of careers websites, recruitment agency websites and job boards since 2001.

We provide HR Professionals, Recruiters and Hiring teams with innovative, cloud-based technology aimed at streamlining the recruitment process, making it quicker and easier to recruit, whilst significantly reducing the time to hire and associated costs. As early pioneers of multi-job posting technology, our expertise extended into candidate management, CV parsing and scoring, and search capabilities right through to candidate onboarding.

In April 2019 the business was acquired and Recrutive became a wholly-owned subsidiary of SaaS Holdings Limited. We support continued investment into ongoing Research & Development in order to remain ahead of the technology curve. Our end-to-end solutions also incorporate the front-end candidate attraction capabilities of careers websites, built and designed by our in-house design specialists.

This enables us to not only deliver award-winning back-end candidate management solutions for clients but also provide beautifully designed front-end career and campaign websites to attract the best candidate talent. As a result, we are one of the few providers in the market that can deliver a complete end-to-end solution.

Based in Cannock, Staffordshire, we employ 33 of the friendliest and most competent staff. We remain an incredibly innovative business, always looking for better ways to enhance the recruitment software landscape.

We are a market-leading company.

Recruitment Website Design

Attracting the right candidate is a balance between having a great-looking and engaging website with good quality content. Whilst also including the very latest, candidate-friendly, efficient recruitment technology including multi-job posting tools and media buying features.

Recruitment agency websites can be incorporated into your company's main corporate website or be a stand-alone website, where available jobs are displayed. Branded recruitment agency websites can deliver a multitude of recruitment advantages including cost, efficiency and internal mobility. Our websites are designed to reflect your organisation's branding and to be connected to your ATS system to allow quick job advertising and application management functionality.

All our recruitment agency websites are secure, mobile compatible and GDPR compatible with complete search engine optimisation tools, marketing activities, job distribution services, social media connection and integration with Google Jobs or other third-party jobs boards.

With easy-to-update content management systems and full training/support provided, you'll be able to boost your talent search in no time!

Service & Support

Our cloud-based recruitment services and websites are all hosted in robust and secure, UK-based data centers. When you join us as a new client, we automatically appoint a range of personnel to your account; an Account Manager who is responsible for your ongoing support requirements and a Training Manager who looks after any ongoing training requirements.

You may also have a Project Manager who oversees that every aspect of your account is running smoothly. What's more, to ensure our clients are making the most of their solutions we offer unlimited online training to all clients, supplying all clients with standard or branded user guides to refer back to whenever they need to.

More recently we have started developing training videos that our clients love, as they can refer back to these videos as and when they need to. The training department offers user manuals to make sure they provide efficient training on the basics and easy how-to guides for our clients to follow.
